<html>
Escalations

None.

Accomplishments

Product Page Print & Email

Installed Search code on development server. Still some issues with
the cache database. Continued setting up the development environment.</
li>

```html
<li>
Worked on the Mail Handler backend code.</li>

<li>
Met with QA team to help develop test plan.</li>

<li>
Engineering and QA participated in the finalized UI review.</li>
</ul>

<li>
Local Store</li>

<ul>
<li>
Discussed merchant feed handling strategy with Steve and Yogi.  Came
up with a workable plan.  Need to write down the plan and do a sanity
check with others in the divlet and with DCI.</li>

<li>
Discussed including Local Store locator on A-Z pages.  The Dulles
team doesn't want to spend a lot of effort into this.  They agreed
to include a simple store search widget.</li>

<li>
Got familiar with the Merchant Compare code and started coding the local
store UI.</li>

<li>
Engineering and QA participated in the finalized UI review.</li>
</ul>

<li>
Shopping Widget</li>

<ul>
<li>
QA wrote first draft of the test plan.</li>

<li>
Continued working with the P13n folks on the widget implementation details.</li>
</ul>

<li>
Reviewed Shop@Anywhere project requirements with Ops.</li>
```

```
</ul>
Issues
<ul>
<li>
DCI relationship still requires very close management.  No need to
escalate yet.</li>

<li>
Ops raised some issues with our plan to scrape the "store specials" from
the department pages.  David Habib promised to work with us on this
issue and on wardware requirement.</li>
</ul>
Next week
<ul>
<li>
Product Page Print &amp; Email</li>

<ul>
<li>
Finish setting up development environment.</li>

<li>
Try to finish Mail Handler back end.</li>
</ul>

<li>
Local Store</li>

<ul>
<li>
Get agreement from everyone involved on the merchant feed handling. 
Come up with a plan for implementing the necessary changes to the Tools
and feed processing.</li>

<li>
Make progress on Local Store UI development.</li>
</ul>

<li>
Widget</li>

<ul>
<li>
Resolve Ops issues.</li>

<li>
```

Meet with P13n QA folks to determine the Widget QA environment and
responsibilities.

Resolve open issues with the P13n engineering team.
